

Many Reports at Club Federation Annual Meeting

Minutes of Kingston Federation of Women's Clubs Described in Detail—Officers Elected for Ensuing Year—May Ask W. C. T. U. Aid in Raising Money to Kingston.

The annual meeting of the Kingston Federation of Women's Clubs was held at the Y. W. C. A. building last evening. The meeting was opened by the president, Mrs. Edgar N. Allen, with the reading of the minutes of the last open meeting and the last executive committee meeting after which the secretary, Mrs. Reed, gave the following report:

The Federation activities for the past year were presented. The meeting was presided over by the president, Mrs. Edgar N. Allen, who opened with the reading of the minutes of the last open meeting and the last executive committee meeting after which the secretary, Mrs. Reed, gave the following report:

Federation Activities of 1928-29. The Federation contributed toward sending \$19 toward the local post of the American Legion to the convention of delegates at Texas.

\$25 (\$29 from general fund and \$4 from public health fund) contributed to Red Cross Florida relief fund. In cooperation with W. C. T. U. secured Col. Lucius H. Holt of West Point Military Academy faculty to give a free lecture on "What Constitutes Good Citizenship," previous to election. Half of fee, \$5 paid from general fund.

Electing four delegates besides president to attend State Federation convention.

At January open meeting, county committee, Mrs. Walker, chairman, was the hostess. Owing to illness the president, Mrs. Reed, was unable to be present, but all enjoyed the meeting. Mrs. Frederick W. Cameron, district director, gave a most pleasing vocal selection by Mrs. Weeks, accompanied by Mrs. Elmer. Following the open meeting, Mrs. Cameron was the guest of honor at a dinner given at the Stuyvesant Hotel, thirty-nine women being present.

\$10 (\$40 from general fund and \$10 from public health fund) contributed to Chinese famine relief.

At March open meeting, Lowell Clark entertained. Sidney K. Clapp, assistant engineer of the New York Board of Water Supply, and head of all of the reforesting work of the entire American system, was the speaker, whose address was in the interest of helping the Federation women to help the city of Kingston to protect its beautiful trees and to replace those taken down as well as to gather information as to legislation regarding the mutilation of trees. Music by string trio of young women.

Interesting reports at each executive committee and open meeting on public health and moving pictures by Dr. Day and good government by Mrs. Reed.

Large card party successfully held to raise funds for the carrying on of the work in the city, especially the acquisition of a city nursery of shade trees. Sidney K. Clapp, appointed by the mayor and common council, as head of a men's committee to cooperate with a committee from the Federation in this tree project. This committee is already active.

The Monday Club contributed \$20 to the "Daily Bread League" of the Samaritan (Japan) Hospital of the Samaritan of Hope, for lepers, founded and operated through the efforts of superhuman efforts of Miss H. B. Biddle. This sum furnishes food for the entire hospital, patients, attendants, staff, etc., for one day.

Treasurer's Report. She then gave the annual report of the treasurer, Miss Edith C. Holmes, which will be found at the end of this report.

Committee Reports. The annual report of the membership committee, Miss Lucy Healy, chairman, showed nine new members acquired during the year; two members lost, one by removal from town, the other through joining one of the clubs; seven affiliated clubs and 64 individual members, making a total of some 200 women. The individual members automatically form the public health committee of which Dr. Day is chairman.

Dr. Day, chairman of the moving picture committee, while not giving an annual report of the committee's activities which have been worth while, told of a brief conference with Mr. Lazarus regarding the showing of the new famous picture, "Deliverance," and Dr. Day was empowered to further investigate the matter, particularly the cooperation of the American W. C. T. U. in bringing this film to Kingston. Dr. Day was further empowered to arrange for such a presentation if possible.

As chairman of the public health committee, Dr. Day devoted her report to a description of Camp Happiness for underprivileged and under-served children this summer, the same being made possible because of the year's generous Christmas sale which reached the unprecedented total of \$3,664. Camp Happiness, for which the community may thank the initiative of Miss Hazel Reide, visiting tuberculosis nurse, will be in operation during the two months of July and August and it will be possible to give the privileges of this camp, free of charge, to 25 boys for one month and 25 girls the other month.

The annual good government committee.

Charge Two With Reckless Driving

Thomas C. Payne of Goldrick's Landing and Ralph Cozzo of North Street Arrested—Other Cases in Police Court.

Ralph Cozzo of 49 North street, arrested Sunday by Officer Fallon, who charged Cozzo with reckless driving, entered a plea of guilty to the charge in police court today and was fined \$29 by Judge Shufeldt. According to the report of the officer, Cozzo drove out of Railroad avenue at a rapid rate, cutting to the left of the traffic standard and proceeded on down Broadway at 45 miles an hour. The officer gave chase in another car, overhauling Cozzo on Delaware avenue.

Thomas C. Payne of Goldrick's Landing, arrested Saturday evening by Max Richter of Henry street, who charged Payne with reckless driving, entered a plea of not guilty and the hearing was adjourned to Thursday. The arrest was the outcome of an automobile collision in which three cars figured. Richter claims he was pulling out from the curb on Washington avenue when his car was struck by the car driven by Payne, causing the Richter car to crash into a Ford truck driven by A. R. Hasbrouck of Woodstock, which was parked at a curb a short distance ahead of where the Richter car had been parked. All three cars were damaged.

Benjamin Bahl Arrested. Benjamin Bahl, who said he resides on Washington avenue, was arrested today by Sergeant Phiney on a warrant sworn out by Mrs. Bahl who charged her husband with abandoning their four children. This is a felony charge and Judge Shufeldt informed Bahl that all he could do was to hold a preliminary examination and if the evidence warranted it he could hold Bahl for the action of the grand jury.

Attorney Milton O. Auchmoody, who appeared for Mrs. Bahl, said that Mrs. Bahl had several witnesses and he asked for an adjournment. The hearing was adjourned to June 3.

Other Cases in Court. Louis Carpio of East Kingston, arrested for public intoxication on Broadway, was fined \$5.

John Burke, a negro, arrested for public intoxication on East Strand, pleaded not guilty and the hearing was adjourned to Tuesday.

Virgil Sampson, a negro, arrested for public intoxication on Ann street, was fined \$5.

A Traffic Case. Quentin Hummel of Esopus, arrested by Officer Fallon on Sunday for not being able to produce an operator's license, forfeited \$10 cash bail when he failed to appear to answer to the charge today.

Victim of Auto Crash in Hospital

James D. Fahey is Being Held Awaiting Outcome of Injuries to John Kelly—Who is in the Benedictine Hospital.

James D. Fahey, who lives in Ohio and is construction foreman at the new cement plant being constructed at High Falls, was placed under arrest Sunday night, following an automobile collision at the foot of Cornell's hill, town of Rosendale. Mr. Fahey is in the care of Sheriff Rice, awaiting the outcome of injuries to John Kelly of High Falls, who is in the Benedictine Hospital. An X-ray photograph will be taken to ascertain the extent of the injuries to his head.

Riding with Mr. Kelly at the time of the crash was Howard Stevens, also of High Falls. He was treated for cuts on his leg at the hospital by Dr. John F. Larkin. Mr. Fahey was not injured.

The accident occurred at 9:30 o'clock and it was stated that the car driven by Mr. Kelly was on its way to Kingston while Mr. Fahey was driving toward Rosendale. Due to the slippery condition of the highway the Fahey automobile went off the pavement to the shoulder at the right. In steering his car back on the pavement his car shot to the left and struck the Stevens car head-on. Both cars were considerably damaged. Word was sent to the sheriff's office following the crash and Deputy Sheriff Constable went to the scene and placed Fahey under arrest.

FAHAY CAUSE NEW WEST POINT REGULATIONS

Washington, May 29 (AP).—New regulations governing the admission of cadets to West Point have been adopted because of the large number of failures, principally in mathematics, since 1915 when admission on certificates was put into force.

Secretary Good has approved changes recommended by Major General William R. Smith, superintendent of the military academy, which are expected to raise the standard of scholarship of the candidates, and eliminate those who enter the school unprepared for the course.

The new regulations affect principally those candidates who are graduates of preparatory schools, public high schools, or honor graduates of honor schools accredited by the academy.

Study Revision of World War Claims Due United States

New Plan Outlined at White House Conference, Spreading Payments Over Longer Period—Reparations Conference Becomes Heated, and Believes Settlement of Problem Possible.

Washington, May 29 (AP).—President Hoover and congressional leaders today were studying a proposal for revision of payments due the United States in connection with American Army of Occupation costs and the private war claims of American nationals against Germany.

A new plan for these payments was outlined at a White House conference last night after President Hoover's return from a week-end outing in the Virginia mountains.

The new program outlined by Undersecretary Mills of the Treasury suggested a revision of the time schedule for German payments on the American Army of Occupation costs. It was explained this contemplated a spreading out over a longer period of these payments and also what was described by some of those present as an "inconsequential" paring down of the amount.

Included in the plan also is a suggestion for a realignment of the plan for payments by Germany to American nationals growing out of war claims.

Cabinet and Leaders Present. The White House conference was attended by a number of members of the cabinet, administration congressional leaders and Representative Garner of Texas, and Senator Simmons of North Carolina, ranking Democratic members of the House and Senate committees, which will be called to pass upon any recommendation from the administration for a revision of the present payment agreement.

A number of senators this morning expressed approval of the suggested revision and several said it was their opinion that in the near future a formal recommendation for such a change would be transmitted to Congress by President Hoover.

Official Feeling in Washington. Secretary Stimson said today the general feeling of government officials and congressional leaders who conferred with President Hoover over a revision of the United States war claims to the United States was that if other allied nations accepted similar percentage payments this country could not do less.

Changes Aspect at Paris. Paris, May 29 (AP).—News that the American government has taken a hand in the reparations settlement, which became known here today, has changed the aspect of things at the experts' headquarters.

It was generally felt it may alter the whole course of the negotiations and make possible a settlement of which nearly everyone had begun to despair.

The American delegation to the conference was stated to have received "through the usual channels" a communication from Washington, but no member was willing to divulge its contents or make any statement concerning it.

The embassy, through which the communication was received, also was silent.

Flurry in Hotel Lobbies. The news that President Hoover had communicated with Owen D. Young through the American embassy caused the greatest flurry in the lobbies of the Hotel George V since the presentation of the German reply to the Allied memorandum that almost broke up the conference three weeks ago.

Speculation started at once and spread throughout the building as to just what President Hoover had proposed to the chief American delegate. The general assumption was that the message authorized a reduction in the American share of annuities and the question that was on everyone's lips was: "How much?"

Miggins Injured As His Car Upset

John J. Miggins of 569 Broadway was injured about 11 o'clock Sunday evening while driving along the road leading from the Rondout Creek Bridge to Connelly when his car left the road, crashed through a guard rail and turned over twice, pinning Miggins underneath with his body closely wedged against the steering wheel.

A few minutes after the accident John Doyle of this city, driving past, saw the overturned car, and extricated Miggins, took him to the home of John Stout where first aid treatment was given the injured man, who was later removed to the Kingston Hospital by Mr. Doyle and Mr. Stout. Miggins was badly bruised about the body. His condition today was reported as being fairly good.

Injured When Autos Collide

A car owned by Henry Winter of Newark, N. J., and driven by Oscar Williams of this city, and a machine driven by Alfred A. Balinsky of Highland avenue collided on the south Ashokan boulevard Sunday afternoon. Mrs. B. Farkas of Newark received minor injuries. Both cars were damaged, the Balinsky car being turned completely around by the impact.

2 Killed, Over 60 Hurt in Panic at Yankee Stadium

Girl and Man Trampled to Death as Crowds Rush to Escape Downpour—Injuries Ranged from Fractured Skulls to Cuts and Bruises—Hundreds Had Clothing Torn Off.

New York, May 29 (AP).—A rush to escape the heavy downpour Sunday resulted in a stampede of bleacher fans at the Yankee Stadium in which a college girl and a teamster were killed. Eighteen persons are in hospitals today recovering from injuries.

Miss Eleanor Price, 17, a student at Hunter College, and Joseph Carter, 69, were killed. More than 60 persons were injured.

The stampede occurred when 9,000 fans rushed from the south bleachers to escape a heavy rain which drenched the first game of a doubleheader between the Yankees and the Boston Red Sox.

The bleacher where the accident happened is behind right field and has been named Ruthville by the fans because it is into this stand that Babe Ruth usually hits his home runs. It is a favorite vantage point for boys.

Drizzle Turned Into Deluge. When a light drizzle suddenly turned into a deluge in the Yankee's half of the fifth inning the fans in the right field bleachers rose as one person and rushed toward the southernmost exit. This exit leads down 14 steep steps to a passageway.

As the pressure of the crowd increased the first one on the stairs was toppled down and those behind fell on them. In a few seconds the stairway was a mass of screaming, fighting, panic-stricken humanity. Those in the rear, unaware of the crush in the stairway, pressed forward to push others onto the human heap.

The crush was not stopped until police rushed into the stand and drove back the hundreds shoving toward the top of the stairs.

Escape by Dropping to Ground. Wire netting enclosing either side of the stairway gave way under the pressure of bodies and scores dropped from the pile to the ground beneath the stand and escaped injury.

Miss Price and Carter were among those at the bottom of the mass. The girl's 14-year-old brother was beside her but escaped serious injury.

Police called reserves and ambulances and set up emergency first aid stations in the players' dressing rooms, where ambulance surgeons attended the scores of injured. The injuries ranged from fractured skulls to broken bones and internal injuries to cuts and bruises.

Hundreds of persons had their clothing torn off in the jam. Police gathered up bushels of hats, coats, and even shoes after the passage had been cleared.

Deaths About Eight Hours. The body when found had the head nearly severed from it. There were also several slight abrasions on the left arm near the elbow and shoulder. The body was cold and rigid and the man had been dead about eight hours.

It is thought Van Buren was struck by the freight train pulling into Kingston shortly before midnight on Sunday. This train consisted of 25 cars and two locomotives. Both engines and cars were examined by Coroner Conner, Sergeant Simpson and Train Master J. D. Carlinoff, but no evidence of blood was found.

At the request of the family the body was turned over to Undertakers Jensen & Perry, and funeral services will be held Tuesday afternoon at 2:30 o'clock with interment in Montrose cemetery.

Mr. Van Buren is survived by his wife, who was Melba Medley; four children, Thelma, Huyler, Jr., Robert and Dorothy; his mother, Mrs. Catherine Van Buren of Union City, N. J., a sister, Mrs. Donald Rodde of Union City, and four brothers, Harry, Joseph and Albert C. Van Buren of Kingston, and Myron Van Buren of North Bergen, N. J.

Mr. Van Buren, who was a conductor on the West Shore railroad, running out of Westhewen, had not been working for several days.

The investigation of the crew of the freight train that is thought to have struck Van Buren, disclosed the fact that no one had seen the man struck.

7 Killed in Plane Crashes on Sunday

Air Accidents Also Result in Injuries to Eight Persons—Casualty List Includes Officials and Civilians.

(By The Associated Press.) Seven persons were killed and eight were injured, three seriously, in six airplane crashes Sunday. One of the planes involved in the accidents was an army ship and another was a home-made monoplane.

Major Joseph Noyes, 40, of Oklahoma City, United States Department of Commerce, inspector for Illinois, was killed, and Frank Graves, 25, Lowell, Ind., was injured seriously at Kankakee, Ill., when Graves' plane crashed from a height of 65 feet after a 2,900 foot attempted spiral landing. Major Noyes, who was stationed in Chicago, had gone to Kankakee to inspect a new airport and was examining Graves for a commercial pilot's license.

Corporal Archibald, Bryant, ninth squadron, third attack group, United States Air Corps, was killed and Lieutenant Edward Hertzberg, pilot, was slightly injured at Galveston, Tex., when in an attempt to take off the machine nosed into the ground.

At Muskegon, Mich., George F. King, 28, and Morris R. Mellinger, 25, lost their lives in their home-made monoplane. A wing was torn from the fuselage when King was pulling out of a voluntary nose dive and the ship crashed 1,500 feet.

Wing Breaks as Plane Makes Loop. A Calgary Aero Club plane crashed at Calgary, Alberta, killing N. E. Stevens and D. E. McCallum. A wing broke when the plane was making a loop and the machine fell 2,500 feet.

Louis Scott, 19, mechanic, was fatally injured, and G. G. Corbett, pilot, was slightly hurt in a crash near Pawhuska, Okla. In an attempt to land after engine trouble had developed the plane struck high tension wires and fell into a ditch.

Huyler VanBuren Found Dead Along Railroad Tracks

West Shore Conductor's Body Found With Head Nearly Severed From Body About Six O'clock Sunday Morning Along Wallkill Valley Tracks on Greenkill Avenue.

With the head nearly severed from the neck, the body of Huyler VanBuren of 15 Prospect street, a conductor on the West Shore railroad, was found lying along the Wallkill Valley railroad tracks on Greenkill Avenue, almost opposite the pajama factory of Chester A. Bantz, about 5 o'clock Sunday morning. An investigation made by Coroner W. Norman Conner and Sergeant James V. Simpson led to the belief that VanBuren had been struck by a Wallkill Valley freight train arriving in Kingston about 11 o'clock Saturday night, although an investigation of the locomotives and the cars in the freight train disclosed no evidence of blood or indications that the train had struck anyone.

The body of the dead man was discovered by Engineer Thomas J. Quest as a freight train was pulling into Kingston shortly before 6 o'clock Sunday morning. There were two locomotives pulling the freight and Engineer Quest was in charge of the second engine. The crew of the first engine did not see the body. Engineer Quest reported his discovery to Policeman Fitzgerald who immediately called up police headquarters.

The police notified Coroner Conner and he together with Sergeant Simpson made an investigation of the tragedy. Identification of the body was made by a fishing and hunting license found in a pocket. According to the police report there was evidence of blood on the rails and ties for over twenty-five feet from the place where the body was found. The man's cap was found lying inside the rail.

Deaths About Eight Hours. The body when found had the head nearly severed from it. There were also several slight abrasions on the left arm near the elbow and shoulder. The body was cold and rigid and the man had been dead about eight hours.

It is thought Van Buren was struck by the freight train pulling into Kingston shortly before midnight on Sunday. This train consisted of 25 cars and two locomotives. Both engines and cars were examined by Coroner Conner, Sergeant Simpson and Train Master J. D. Carlinoff, but no evidence of blood was found.

At the request of the family the body was turned over to Undertakers Jensen & Perry, and funeral services will be held Tuesday afternoon at 2:30 o'clock with interment in Montrose cemetery.

Mr. Van Buren is survived by his wife, who was Melba Medley; four children, Thelma, Huyler, Jr., Robert and Dorothy; his mother, Mrs. Catherine Van Buren of Union City, N. J., a sister, Mrs. Donald Rodde of Union City, and four brothers, Harry, Joseph and Albert C. Van Buren of Kingston, and Myron Van Buren of North Bergen, N. J.

Mr. Van Buren, who was a conductor on the West Shore railroad, running out of Westhewen, had not been working for several days.

The investigation of the crew of the freight train that is thought to have struck Van Buren, disclosed the fact that no one had seen the man struck.

FIND \$30,000 ON WOMAN KILLED BY AUTOMOBILE

New York, May 29 (AP).—The authorities today were holding \$30,000 in cash, jewelry and securities taken from a money belt found on the body of a woman identified as Mrs. Frances Garwood Quin of Philadelphia, who was killed by an automobile.

In the money belt hospital attendants found eight diamond rings, two diamond brooches, a pair of diamond earrings, \$906 in cash and two certificates for 100 shares each of American Sugar Refining Company and United Corporation stock.

In her purse was \$7 and a bank book issued by the Irving Trust Company of Philadelphia.

Philadelphia police reported Mrs. Quin had lived at the Stephen Girard Hotel there. She was the widow of an Episcopal clergyman who died about five years ago in the South Sea Islands.

In her room in Philadelphia were found stock certificates estimated to be worth \$239,000.

FOUR FROM TOWN OF CLUSTER IN COUNTY JAIL

Being unable to pay fines of \$5 each imposed by Justice of the Peace Speers at Lake Katrine, town of Speers, who found them guilty of a charge of gambling, Danty Barker and George Thomas of East Kingston are serving five days each in Ulster county jail. Grant Thomas and Cleon Collins are two other town of Ulster representatives in jail. They are from East Kingston and were sent to serve ten days each by Justice of the Peace Charles Jennings of Lake Katrine. The charge was disorderly conduct. All four are negroes.

Rush For Licenses

The last few days of the rush season set in at the local motor vehicle bureau at 237 Fair street, this morning. At times there were long lines of applicants for operator's or chauffeur renewal licenses.

Explains Sale of Poppies Last Year

To the Editor of The Freeman

While I have no wish to add fuel to an already acrimonious discussion, I wish to take exception to the statement of Mr. Trowbridge, of the Veterans of Foreign Wars, that the American Legion last year sold poppies contrary to agreement. Since I was commander of the Legion at that time, I have an intimate knowledge of the circumstances. The Legion positively did not sell poppies in Kingston until the V. F. W. had sold them in Ponckhocke and on Brewster street before the time agreed upon. This was no fault of Mr. Malcolm Michelson, the V. F. W. poppy chairman, who is a gentleman of unquestioned integrity, but was due to his overzealous agents who refused to follow his instructions.

Mr. Trowbridge also states that few Legion posts in the country sell poppies. This statement is entirely without foundation in fact. National headquarters of the American Legion at Indianapolis this year has already filled orders from Legion posts for over ten million poppies, and orders are still coming in.

The statement that the Legion has no right to sell poppies is absurd. The Legion is strictly a World War veterans' association. The poppy, the official flower of the American Legion, surely has more significance to a World War boy than to a veteran who served in a war fought long before the poppies of Flanders Fields were heard of.

I am glad to hear, as Mr. Trowbridge states, that the President has endorsed their poppy campaign. Who could refuse to endorse a project so worthy? However, the American Legion's poppy campaign is so long and so well established, and so generously supported, that it needs no special endorsement. It is endorsed by all. So is the Legion's program of community service, which translates into deeds of civic usefulness its motto—"In Peace, as in War, We Serve."

Not a Legion poppy has been sold in Kingston. Not one has been distributed to a city worker. On Saturday a man was observed in this city wearing a poppy with the well known American Legion white label. It developed that he was a traveling salesman who bought the poppy while passing through Beacon, where poppy day was then being held. If anyone else has worn a Legion poppy, it was bought outside the city of Kingston.

The Legion will not sell a poppy in this city until next Saturday. May I suggest that the Veterans of Foreign Wars do likewise?

May I suggest, also, that hereafter the practice of selling poppies poppy day be set aside officially as poppy day by the mayor's proclamation be outlawed. If this is not done, an annual opportunity for patriotic citizens to help in a splendidly charitable and unifying manner will be lost, and if the public, who pays the bill, refuses longer to support poppy day, who will the losers be? Not the American Legion, not the V. F. W., but their disabled and distressed comrades, in home and hospital, their widows and children.

Let's remember them, and dwell together in peace and harmony so that we might better be able to minister to their many needs with hands and hearts of love and sympathy—not in strife and discord. And—Let's keep the faith with those that sleep in Flanders Field where poppies grow.

CONRAD J. HEISELMAN.

Bomb Two Cities In Air Maneuvers

Washington, May 29 (AP).—Atlantic City as well as New York city will be "bombed" by the army's latest type bombing plane tomorrow evening after a nonstop flight from Wright Field, Dayton, Ohio.

A refueling plane and an army transport plane, which the war department describes as a flying radio laboratory, will accompany the bomber and broadcast a description of the "bombing" of the two cities on two wavelengths, 750 meters and 80 meters.

The bomber will be flown by Lieut. Odar Moon, who piloted one of the refueling ships during the endurance flight of the Question Mark.

No stops will be made between Dayton and New York, but the plane will be refueled over Bolling Field, Washington, by a refueling ship, piloted by Captain Ross G. Hoyt.

After accomplishing their mission over New York city, the two planes will proceed to Atlantic City and "destroy" that resort. Then they will return to Bolling Field, where the bomber will be refueled for its return to Dayton.

KINGSTON MOTORIST ARRESTED AT WATERVLIET

Chief of Police J. M. McGrath of Waterliet has started a campaign against traffic violators and in particular against violators who do not heed the traffic lights. Among those who were haled into court were Eugene Vandenburg of Downs street, Kingston, who posted \$10 with the police.

Extra Dividend Declared

New York, May 29 (AP).—Directors of the E. I. DuPont de Nemours Company today declared an extra dividend of 50 cents a share on common stock, in addition to the regular quarterly dividend.

Must Clarify Zeppelin Mishap Before Next Trip

Dr. Eckener Says Giant Airship Will Take No More Long Journeys Until Failure of Motors Has Been Solved—Eliminates Idea of Sabotage.

Friedrichshafen, Germany, May 29 (AP).—Dr. Hugo Eckener, master of the Graf Zeppelin, said today that the massive dirigible would take no more long journeys until the failure of four of its motors last Friday had been sifted thoroughly and "absolute clarification" of the mishap reached.

"I returned here to confer about the question of motors," the airship's master said. "It is natural that so long as there isn't absolute clarification concerning the reasons for the motor defect the Graf Zeppelin will not undertake any long and extended journeys."

"I have a conference scheduled today with various department heads after which I shall make preparations to return to Toulon. We hope to bring the Graf back by Thursday or Friday. Two motors already have arrived in France and others here are ready for shipment."

"There is such much I would like to say now—the breakdown and resulting difficulties, for the airship, have nothing whatever to do with the dirigible itself. No objections to or criticism of its construction can in any way be derived therefrom."

"Sabotage Out of the Question. That the airship, despite the defective motors, was nevertheless able to maneuver that a safe landing was effected is in itself another proof of its airworthiness. It is also clear that another kind of multi-motored aircraft could not have done better. I would like further to state emphatically that sabotage is out of the question."

"The question has been raised whether the motor defect was due to wear and tear. This question is advanced in view of the fact that the motors already had five or six hundred hours service behind them. Let me point out, however, that after the last Mediterranean cruise two of the motors were minutely examined for this very purpose but neither showed the slightest sign of wear and tear."

"However, all this must necessarily be more or less guess work until the broken parts are thoroughly examined."

Motors Are Being Repaired. Cuers, France, May 29 (AP).—Motors of the giant dirigible, Graf Zeppelin, were being repaired today to permit its departure either Wednesday or Thursday under its own power for its Friedrichshafen hangar.

Investigation into the causes of the engine failures of Friday has not lessened the mystery. Three crank shafts were broken clean and sharp against the joints where they entered the bodies of the motor. There was no evidence of previous weakness.

"It is peculiar and strange," one of the French mechanics said. Jim Eiling, a mechanic brought from Essen, said regarding the first two motors to go dead:

"They might as well take an axe to these. I am sure I don't understand what happened to them." He added, however, "we will get this music box singing within two or three days."

Those in charge continued, however, to deny charges of sabotage. The very word was taboo at the hangar. "Please don't say that, it will make us look so foolish," Captain Hans Flemming told newspapermen. "The motors just died out; that's all."

May Resume Trip Within Month. Once back in Friedrichshafen preparations will go forward for looking to a resumption of the trip to the United States. Captain Lehmann said, Dr. Eckener, prior to his departure for Friedrichshafen, had indicated this might take place within a month.

Thousands of townspeople and motorists from Toulon and places further away thronged the air base every week end to inspect the dirigible. It was a friendly crowd and the cry of "Vive L'Allemagne" was heard several times, possibly for the first time on French soil since the World War.

Any Reports at Annual Meeting

(Continued from Page One)

The report was included in the report of the secretary who presented the annual report of the good government of the city.

The Home-Making Center, which is the matter of persuading the women to attend the Home-Making Convention, at the State Federation, at the Grand Central Palace, New York City, was brought to the attention of the committee. It was an exhibition of every kind of home-making de-

NOTICE TO CREDITORS—In pursuance of an order of the Court in and for the County of Ulster, New York, in the matter of the estate of **GEORGE F. KAUFMAN**, deceased, I, the undersigned, Verónica A. Morris, the Administratrix of the estate of said deceased, do hereby give notice to all persons having claims against the estate of said deceased, to present the same with the vouchers in support thereof, to the undersigned, at No. 11 Third Avenue, New York City, on or before the 15th day of June, 1928.

VERÓNICA A. MORRIS,
ADMINISTRATRIX.

FREDERICK STEPHAN, JR., Attorney,
No. 2 East Street, Kingston, N. Y.

with all necessary information regarding same. Nothing is sold at the exhibition, but one may learn all about the ways and means of a possible purchase. If one wishes to know about something not shown at the exhibit, the people in attendance will secure the information.

This exhibit has drawn large numbers of people daily, both men and women, and the attendance increases. To the Federation district, sending the most people to the exhibit, either directly or through friends, before the first of October a prize of \$100 will be given and the third district is trying for that prize as being a considerable help in providing funds for the coming State Federation Convention for which the Third district will be the hostess district. Tickets may be secured at the Grand Central Palace or club or individual members may send for the same to the above address and there will be no charge. In order to help toward the prize, the person attending the exhibition must register his or her own name and the name of the club federation through which they received their admission. Every visit counts, no matter how many times one attends the Home-Making Center.

After careful consideration of the work as planned by Mr. Clapp and the members of his city tree committee with which the Federation committee will cooperate, it was voted to empower the treasurer to provide funds for work during the summer, as needed, within a certain limit.

Before leaving her post of duty as secretary of the Kingston Federation of Women's Clubs, Mrs. C. N. Reed gave a summary of the more notable activities of the organization during the past six years.

Through a most unfortunate set of circumstances all previous records of Federation work have been lost, but in order to somewhat secure statistics of this past important work, all former presidents will be asked to immediately prepare for the Federation as nearly an accurate report as possible of notable events during their administrations.

Officers Elected

The final business of the afternoon was the report of the nominating committee. Miss Healy, chairman, which was unanimously adopted and resulted in the election of the following officers:

President, Mrs. Edgar N. Palen, Atharhacton Club; first vice president, Mrs. William Kemble, Sorosis; second vice president, Mrs. A. N. Graham, Sorosis; recording secretary, Mrs. Maurice Safford, Twentieth Century Club; treasurer, Miss Louise Van Hovenberg, Atharhacton Club; corresponding secretary, Mrs. C. N. Reed, Monday Club.

A very hearty and appreciative vote of thanks was given the nominating committee for their work.

Mrs. Palen in accepting the presidency again, asked for the continued support of the executive committee which had so admirably stood by her in the past, and also asked for the cooperation of all club women in the special project now being put over in the city for the care of, replacing and developing of the beautiful city trees, as well as the creating of a city nursery for the raising of roadside trees for the city. In this work the Federation is actively cooperating with the city tree committee of which Sidney K. Clapp is chairman.

Federation Report

1923-24, Dr. Mary Gage-Day, President.

Federation took charge of Christmas Seal Sale.

At October open meeting, the Rev. Dr. Cantine of Arabia was the speaker.

Lectures given by Hamlin Garland and Whiting Williams.

Paid dues as member of Chamber of Commerce.

Federation voted to uphold Chief of Police J. Allan Wood in his endeavors to maintain high moral standards in our city.

Kingston W. C. T. U. became member of Federation.

-----------------------------------------	---------

EDITH C. HOLMES.

Lectures given by Stefansson and Stephen Leacock.

Took charge of Christmas Seal Sale.

Address by Mrs. Colvin, vice president of the State W. C. T. U. on "Woman's Responsibility to Citizenship."

Federation purchased five acres and public health committee purchased one acre of land for N. Y. state reforestation work.

Contributed \$10 a month to help high school graduate during six months at college.

Additional \$125 contributed to City Library.

Meetings presided over by vice president, Mrs. Wonderly, during absence of Dr. Day from city.

Mrs. C. N. Reed made chairman of good government committee.

\$20 contributed to Girl Scout campaign.

Good government committee held three meetings of women of city.

Mayor Block promised to cooperate with Federation and Chief of Police in giving proper police protection for city parks and playgrounds during day and especially in the evening.

Open meeting addressed by Dr. Spencer Lyman Daves of New York and Kingston, medical examiner and state hospital commission; chairman of interstate conference on immigration, who spoke on "Our Immigration Laws, Old, New and Hoped For."

Good government committee asked executive members to attend common council meeting.

Federation contributed \$25 to campaign fund of Kingston Y. W. C. A. and public health committee contributed \$25 to American Legion memorial drive.

Dr. Day gave illustrated talk on Hawaii.

1925-26, Mrs. C. E. Wonderly, President.

Took charge of Christmas Seal Sale in city.

Piano recital given by Miss Ida Bunting.

In November, Mrs. A. Ray Fowler, first vice president, became acting president.

Lecture by Lieut. Jack Harding, aviator, who had flown around the world. Lecture illustrated.

1926-27, Mrs. A. Ray Fowler, President.

Federation entertained two state presidents, Mrs. Charles Dickerson, past president, and Mrs. W. H. Purdy, present president. Later, Miss Frances Lyon spoke on "Health Department of the League of Nations." Miss Lyon is from Albany.

1927-28, Mrs. Edgar N. Palen, President.

\$5 contributed to Red Cross Mississippi flood relief fund.

Paid dues of \$25 to C. of C.

Lecture given by Dr. Lent of Elmira Female College.

In cooperation with Y. W. C. A. presented Mrs. Colvin, who gave lecture on "Non-Partisan Politics."

Education lecture, illustrated, by W. W. Allerton.

Large card party given at Governor Clinton Hotel, netting over \$200.

\$10 contributed by Mrs. John N. Cordis for Federation toward Thomas Jefferson Memorial.

Accepted one, Near East orphan for one year, paying \$50 from general fund and \$10 from public health fund.

Crystal Bird gave musically illustrated talk on "Negro Spirituals and Their Inner Significance."

Stratford Players gave presentation of Julius Caesar at high school. Proceeds for Federation almost \$80.

\$25 contributed to child welfare work.

Good government committee succeeded in having smoke stack at city hall placed somewhat off of Broadway.

Lecture by Chancellor McGown, of the International College of Springfield, Mass., with entertainment by three students.

In addition to these activities it should be stated that the Federation has done its part in supporting district and state federation meetings, sending delegates, etc.

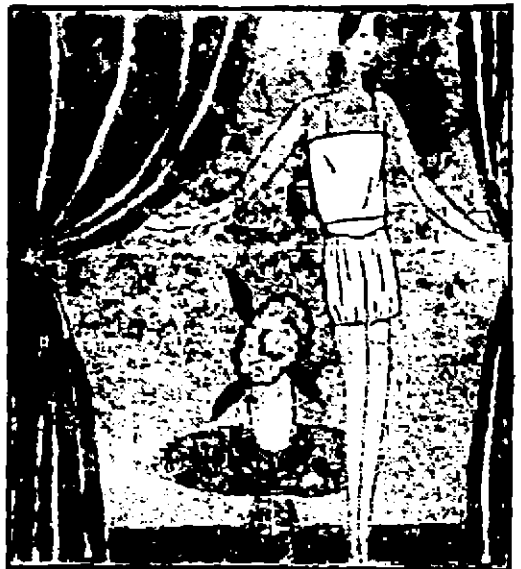

Finally it should be kept in mind that one of the most notable efforts of the Federation in the past was that of starting the movement that resulted in the creation of a Kingston Young Women's Christian Association and the passing on of a former Federation president to be the pre-eminent successful president of that organization, Mrs. Rice.

Immortal Melodies

Chorus was capable of passages of great power, as his "Revolutionary Etude" and the noble "Sonata in B Minor" testify. The latter contains the celebrated funeral march, taking one to the very depths of human despair, only to rise again on a magnificent hymn of hope, which is one of the finest melodies in music—London Times.

to the hungry man, but what a sad disappointment when the "kitchen queen" quits suddenly and the table looks anything but satisfying to a zestful appetite. When in doubt as to what to do, use The Freeman's "Help Wanted" Classified Department.

Premium On Indian Head Cents

Chicago, May 20 (AP).—It is known in the Chicago World's Fair in the market for Indian head cents which to have its highest value.

It is a fact because of the unexplained increase of inquiries received by the fair commission, offering to buy Indian head cents at five cents apiece, and inquiring the reason for the increase.

William Martin Gramp of New York wrote that he understood the world pay five cents for every Indian head cent presently here.

It is an Indian head penny is worth one cent to the World's Fair, and the commission would like someone who started it all.

Newburgh Man in Auto Accident

Michael Dianardo of 36 Liberty street, Newburgh, is confined in the Kingston Hospital with injuries sustained late Sunday afternoon in an accident at Ulster Park.

Dianardo attempted to avoid another car moving in the opposite direction and drove so far off the road that he crashed into a telephone pole.

Two women who were riding with him and whose names were not ascertained, called upon the Kingston police and asked that the automobile be sent.

The injured man was taken to the Kingston Hospital where it was found that he had sustained a fractured rib and a fractured arm. His condition today was reported as good at the hospital.

Superintendent of Catskill Schools, John T. Kaemmerlen, Haverhill, has been chosen superintendent of Catskill public schools to succeed Edward D. Myers, who resigned at the close of the present school year, August 1.

Mr. Kaemmerlen has been strongly recommended by professional and business men of Haverhill. He served during the World War in the military service and has been in the near future.

Home Bureau Program for Week

Miss Helen Kay, specialist in home crafts is in the county this week to meet local leaders for class criticism of home crafts work done in the county. This is the last of a series of lessons in design and color as applied to rugs, pillows, mats and foot stools. The lessons have been especially helpful to those wishing to get information regarding good design and beautifully grayed colors.

Miss Kay remains in the county two days for the purpose of making arrangements for weaving to be done in the county next year should there be any demand for it.

Mrs. Alma Seidmore, specialist in home furnishings will complete this week, the series of lessons in home furnishings given at Stone Ridge, the meeting to the held in the Stone Ridge Grange Hall Friday.

In this lesson Mrs. Seidmore will discuss accessories in the home—lamp shades, sofa pillows, slip covers, etc. The meeting will begin at ten standard time, with an illustrated lecture using lantern slides. All are requested to bring lunch and enjoy the noon hour together.

The entire program for the Home Bureau for the week is as follows:
Tuesday, May 21—Home Crafts Home Visits, Miss Kay, Miss Evelyn Nance.
Wednesday, May 22—Home Crafts, Stone Ridge Library, Mrs. Bond.
Thursday, May 23—Food Selection, Shandaken home of Mrs. Ward Hummel, Miss Nance.
Friday, May 24—Home Furnishings, Stone Ridge Grange Hall, Mrs. Seidmore.

ORANGE DISTRICT AUXILIARY MEETING

The annual meeting of the Orange District of the Women's Auxiliary of the Episcopal Church will be held on Friday, May 24, at St. John's Church, Cornwall. The meetings will begin at 10:45 o'clock. There will be distinguished speakers, among them Bishop Shipman. All women of St. John's Church expecting to attend the meetings are asked to notify Mrs. George DuBois, telephone 2913-J, or Miss Reulah Smith, telephone 1791-J, not later than Wednesday afternoon.

St. Paul Church Entertainment

Tuesday evening at eight o'clock a play entitled "The Old Maid's Convention," will be given at the church hall on Hasbrouck avenue. Entertainment will also be provided. Mrs. Olive Kuehn is also taking part in the play, in addition to those whose names were published in The Freeman Friday. Tickets may be procured at the door.

Flood 50,000 Acres As Levee Breaks

Memphis, Tenn., May 20 (AP).—The St. Francis river levee near Kennett, Mo., gave way early today, endangering levees and property on approximately 50,000 acres of land.

According to a telephone message from the levee board office at Kennett.

The break occurred at a spot considered the weakest in the levee stretch where several hundred men had been working desperately for several days to avert a catastrophe. No large town is in the path of the flood and it was believed all residents of the area subject to inundation had moved to safety.

Hundreds of men were bolstering two other threatened river breaks in the Mississippi valley.

Requests Pledge At Confirmation

Buffalo, May 20 (AP).—Promises to abstain from alcoholic drink was requested for the first time since the advent of prohibition in the Buffalo, Catholic diocese Sunday by Bishop William Turner in administering the pledge in confirming 70 children at a cathedral here.

Bishop Turner explained that church officials dropped the pledge ten years ago, assuming it to be superfluous under the Volstead act.

"With growing evidence that the child must face the same temptation as formerly decided it would be well to resume the pledge," the bishop remarked.

Maverick Theatre To Open July 4

E. J. Ballantine, one of the directors of the Maverick Theatre, Woodstock, closed his New York season in the leading role in The Sea Gull at the Comedy Theatre Saturday night and is driving to Woodstock with Roger Wolfe, artist and technical director.

The first production is being built and the workshop staff will all be there by the end of the week. The first play which will open on July 4 will be a great surprise and delight to Ulster county audiences for it is a success that has just closed in New York and which has not been seen anywhere else in the east. Announcement of the title of the play and the cast will be made soon.

"CIVIL SERVICE" AT WURTS STREET CHURCH

Tuesday evening the young people of the Reformed Church of the Comforter will present the comedy drama "Civil Service" in the chapel of the Wurts Street Baptist Church. The play was recently given at the Reformed Church of the Comforter and made a decided hit with the audience.

Femininity Marks Milady's Apparel

Wide Range of Color Both in Wools and Silks on Fashion Card.

The suit, which has always been considered the first love of American women, was seen in wools, in silks and in combinations of wool and silk, for the whole season lays an emphasis on nice detail for the more serviceable clothes, observes a fashion writer in the Kansas City Star, detailing a special showing of spring and summer apparel for women.

Now that the ensemble has permitted such a wide latitude in the choice of colors, every woman may be clothed in the one which does her natural charms credit.

A tailored french blue two-piece dress with plaited skirt and a blouse which buttoned down the front, flanked by groups of pin tucks, was worn with a matching hat and a beige coat, coming within an inch of the hem of the skirt. A floral crepe suit with a deep blue background, had a flesh colored blouse with a jabot edged in an applique of the floral pattern. This coat was three quarters length. Gray and beige sheer tweed with a beige blouse was one of the perfect types of the hip-length jacket suit.

The floral patterned chiffon dress, which will flatter any woman, was shown in many variations. The general characteristics of these dresses are the flounced skirts, the trailing draperies and the feminine softness which has completely conquered the mode of 1929.

One of the new features of the collection was a suit of black lace bound with ribbon with a cream colored blouse. The jacket has a peplum, pert as you please. The skirt is regulation street length, which at least is a good four inches below the knee.

Fatou's famous black lace evening dress received the same interested attention that it was given at the Paris

Godets About the Hem; Shirring Holding Fullness at Hips.

openings. This dress has a fluttering bolero and much drapery, which is transparent, permitting silk stockings to present a veiled appearance.

Afternoon dresses of the floral patterned chiffons were both sleeveless and sleeved. A number of smart Roman stripe silk ensembles had a one-piece tailored dress with hip-length jackets of the same material, with the stripes running around the figure. Many crepe dresses had lingerie collars and cuffs, organdie or batiste and lace. A black wool suit had a blouse and hat of chartreuse green.

Broad straw hats were worn with the picturesque type of summer day dress, the small hat remaining supreme for street and general wear. Brim or no brim, the line is long at the nape of the neck.

Refinement of pattern marks prints of both silk and chiffon. Floral prints have an artistic blending of soft and vivid coloring and modernistic prints carry one color blended happily with many others. For example: such a print in a long-sleeved afternoon dress had a three-banded skirt, a Peter Pan collar of white organdie and close cuffs of the same material.

Skim Milk Solids Are Needed in Bread Making

Bread made with skim milk solids (skim milk solids are what remains of milk after the water and fat are removed) is readily distinguishable from ordinary bread by its improved appearance, texture and flavor, but its nutritional qualities are what appeal most highly to the housewife. Breads so made are capable of supplying a substantial portion of the daily requirements of milk solids. A pound loaf of bread, made with the equivalent of all solid skimmed milk for the liquid content of the dough, contains the skim milk solids of nearly half a pint of milk. A loaf of this bread, therefore, would supply one quarter of the daily requirements of skim milk solids, based on the "quant a day" rule, while a loaf of bread would supply half the "pint a day" required by adults.

Locusts
Different breeds (or generations) of locusts are known and chronicled by entomologists. They appear in different localities, as a rule, in different years, but nearly always there is a brood of adults emerging somewhere in the world, in any certain year.

Sporting Goods For Better Health

THE world of sports opens up an endless vista of pleasure and enthusiasm. There are so many different avenues that every one may find the outlet best suited to his needs and tastes. First of all complete and well made equipment is essential—only the best affords the fullest enjoyment in any sport. Golf requires a certain standard equipment that soon resolves itself into your favorite clubs—see to it that they are sturdy, well designed and well balanced. Choose your tennis racquet for its balance—its adaptability to your grip. The fisherman finds his delight in gay flies, strong like rods that tell, unmistakably the first nibble of the fish. Guns for big and little game. Pouches and baskets to hold the trophies of stream or field. Baseball for the youngster, with well made bats, gloves, balls and shields. Football for the older lad. If you have not already done so—choose a sport and follow it this summer—it will offer the richest rewards in health and enjoyment.

More Sport in Better Sport Equipment

There's more of sportsmanship in the better made piece of sporting goods. The golf club, racquet, fishing rod or swimming suit that's good will have more staying quality and play the game fairer and better than the makeshift kind. Here are the good-sport goods.

THE END OF YOUR QUEST FOR QUALITY

Accident Gives Hoover Black Eye

Washington, May 20 (AP).—President Hoover today has a black eye, the result of a mishap which occurred in the course of his week-end visit to his fishing preserve in Virginia.

While walking along the bank of the Rapidan River, Mr. Hoover stumbled over a rock and the eye came into forcible contact with a low hanging tree limb. It was treated at once by Lieut. Commander Joel T. Boone.

Mr. Hoover's personal physician, who accompanied him to the preserve, but in spite of this, the discoloration developed rapidly.

THREE DROWN WHEN MOTOR BECOMES DISABLED.

Peterboro, Ont., May 20 (AP).—Three persons leaped to their deaths in the waters of Otonabee river here yesterday after the outboard motor of their boat became disabled when 50 feet above a dam. Three others of the same party escaped. The boat, empty of occupants, then negotiated the dam without shipping a drop of water.

Scores of persons witnessed the accident. The party had been on a cruise in the 18-foot launch and when the motor became disabled the swift current whirled the launch toward the dam. Passing under a highway bridge George Coffey, 19, seized a brass rod and pulled himself to safety, as did Sidney Bennett, 20. The other four occupants leaped into the water. One of them, Janet Lindsay, 20, was rescued.

GIRLS REPLACE NEGROES ON RAILROAD DINERS.

Spokane, Wash., May 20 (AP).—"George" of the familiar "Yassah" will disappear and pert, bobbed-haired blondes and brunettes will balance trays in dining cars on the Northern Pacific's Yellowstone Park trains after June 20.

R. C. Taylor, assistant superintendent of dining car services on the Northern Pacific, announced that girls are being trained to replace negro waiters, chefs and assistant chefs on their trains running between Livingston and Gardiner, Mont.

The new order, Taylor asserted, is in line with his company's effort to appeal to feminine tastes in the matter of food. "We cater to women," he said, "because they are experts in food and know all about it. Give a man enough and he is satisfied."

Memorial Day Committee.

The city-wide joint Memorial Day committee will meet at the American Legion Memorial Building this evening at 8 o'clock. Mayor Edgar J. Dempsey, chairman, desires that all committees be present at the meeting and that the various patriotic, fraternal and civic organizations and representatives. The plan of the committee is to make this Memorial Day one of the most fitting ever celebrated in Kingston.

Sustains Leg Injury.

A car driven by Harry Wood skidded Saturday night on the Stoney Hollow road and went down the bank. He sustained an injury to his leg and was taken to the Kingston Hospital. A passing motorist brought Wood to the hospital, where several stitches were taken to close a wound. The car was badly damaged.

Matters Before The Surrogate

In the surrogate's court, letters of administration have been granted in estate of Mary Ellen Dunn of Saugerties, who died intestate, to Mortimer L. Dunn, Florence E. Hynes and Timothy D. Dunn. Value of estate exceeds \$10,000 real, does not exceed \$15,000 personal. Joseph S. Boyie, Brooklyn, attorney for the petitioner.

Letters of administration have been granted to Lester Sargent of New Paltz in the estate of Stephen Heideman of Marlborough, who died intestate. Value of estate does not exceed \$110. Robert G. Groves, attorney for petitioner.

A Cafeteria Supper.

The members of the Westminster Guild of the Roundout Presbyterian Church will serve a cafeteria supper in the chapel of the church on Wednesday evening commencing at 5:30 o'clock. The proceeds will be used to send a delegate to the summer conference this year.

Secures Office Position.

Miss Margaret O'Brien, an honor graduate of Spencer's Business School, 237-239 Fair street, has secured a desirable position as stenographer, typist and office assistant with Simpson's Art Shop, Woodstock, N. Y.

No Parish Aid Meeting Tuesday.

There will be no meeting of the Parish Aid Society of St. John's Church on Tuesday as was announced by mistake that there would be.

Week's Activities At the Y.W.C.A.

Following is the program for the week of May 20 to May 26 at the Y. W. C. A.:

Monday: 4:00, Grade School Club rehearsal; 7:00, industrial tennis; 8:00, monthly meeting of board of directors.

Tuesday: 8:00, Tri-Hi Mother-daughter banquet; 7:00, swimming at the Y. M. C. A.

Wednesday: 4:00, Grade School Mother-daughter banquet.

Thursday: 10:00, swimming at the Y. M. C. A.; 7:00, industrial girls' tennis.

Friday: 1:00, Class Girl Reserve Club.

Reservations must be made in advance for the banquets for the Tri-Hi Club and the Grade School Clubs. It is hoped that all mothers of the girls will make a special effort to be present.

PLATTEKILL

Plattekill, May 20.—Norman Walton, who was injured at the Dupont Fabrikoid factory at Newburgh some time ago, is recovering slowly.

A splendid attendance was in evidence at the meeting of Plattekill Grange Saturday evening of last week.

Hiram Mullineaux, well known in this place, is seriously ill with pneumonia and a complication of diseases at his home near Rossville. A trained nurse is in attendance.

A dance was held at Grange Hall Friday evening of last week. Rainbow orchestra furnished music for the occasion.

Mr. and Mrs. Nelson Yeager and son, Robert, of Maybrook, were recent guests of Mrs. Matilda Waite.

Mr. and Mrs. Arthur Delner returned to their home in Plattekill last week after motoring to Niagara Falls.

The Ladies' Aid Society of the Plattekill Methodist Episcopal Church will entertain the members of the Busy Bee Society of the Rossville Methodist Church at their annual reunion in the parsonage at Plattekill Tuesday afternoon, May 28.

Mr. and Mrs. Renwick Harris entertained a number of relatives at their home Sunday.

Mr. and Mrs. Charles Johnston, Jr., of Chicago, Ill., were guests at the home of Dr. and Mrs. Charles Johnston during the past week.

Mr. and Mrs. Herbert Gerow and family have returned to their home at Adams, N. Y., after spending some time visiting relatives at Plattekill and vicinity.

Britain's Last Wolf

The last wolf in Britain was one which roamed the country near Loth-bug, Sutherlandshire, in 1700. A monument marks the place where it was killed.

GAS BUGGIES—Exit Alas—

Navy Plans Huge Hangar For New Ships

The navy's two new dirigibles will be built and housed at Akron, Ohio, in a giant hangar (shown in drawing). It was developed by Dr. Karl N. Arnstein (inset).

If a public official goes crooked the fact is broadcast from one end of the country to the other, because such a thing is unusual. The great majority of officials honestly serving the public attracts no attention.

Her Father—"What reason have you, sir, for wanting to marry my daughter?"

Young Man—"I—er haven't any reason. I'm in love."

A Kingston man says the only exercise he gets is in running from bores.

POOK FARMER

The chick bug eats the farmer's grain. The bee moth eats his honey. The city "bug" gives him a pain. The humbug gets his money.

We cheerfully fly to the rescue of the fair sex. The modern woman is not half as bad as she is painted.

The Optimist: "Say, she's sweet enough to eat, isn't she?"

The Pessimist: "But even if you ate her, I'll bet she wouldn't agree with you."

"That's a small engine for such a big car, isn't it?"

"Oh, it's small, all right. You see it smoked a lot when it was young."

A too-persistent job hunter probably wonders why Mr. Hoover is called a "civil" engineer.

A Mouthful.

"And you know nothing whatever about religion?" asked the missionary.

"Well, we got a taste of it when the last missionary was here," said the cannibal.

Agatha—What makes Betty want a divorce? Is it that husband of hers?

Agnes—No; it's that husband that isn't hers."

Fertilizer Ingredients.

In an obituary of a prominent Norfolk business man, founder and head of a fertilizer concern the Norfolk, Va., Pilot said:

"He put his whole heart and soul into his fertilizers."

One of the worst things in this world of all possible worlds is to deny a capable man the chance to work because he has done nothing worse than to become 50 or 60 years old.

The young dramatist walked nervously into the manager's office.

"Might I ask if my three-act play has been read yet?" he said.

"Three different people have read it," answered the manager, "and each thinks it will do with one act cut out."

"I'm glad to hear that it is no worse," replied the other, with a sigh of relief.

"But," continued the manager, "each wants to cut out a different act."

Candy-Staff

Marjorie, age seven, was much interested in the flowers her mother had growing in the yard, and had been eagerly waiting for the first blossoms to appear. Among them were several plants of candy-staff. One day she came running into the house much excited, saying: "Mother, that candy-staff of yours out there in the yard is blooming."

Asbestos Named by Greeks

The ancient Greeks gave asbestos its name, the word meaning "unburnable." This mineral owes its value to the fact that its fibers can be separated and woven into a fabric that is indestructible by fire and acid-proof. Charlemagne was said to have had a tablecloth of asbestos which was cleaned by being thrown into the fire.

SHE THOUGHT:
"I'll never invite you again!"
Yet, to be polite,
SHE SAID:
"It's nice to have you here, Ruth."

Charming—yet Ruth is so unwelcome . . . can it be "B. O."?

(Baby Oils)

"I'm enjoying Alice Cole's bridge," Ruth was thinking some weeks later. "But she's never asked me again."

"Same old story—people like me at first—but quickly lose interest."

Then Ruth began to suspect the trouble. Read what she learned about "B. O."

"I'd never believe a person could be guilty of body odor—and not know it—except that it happened to me."

"'B. O.' fools us like that, my doctor explained, because we become insensitive to familiar odors. But even on cool days

the pores give off as much as a quart of odor-causing waste."

"Now, thanks to Lifebuoy, I never worry about offending. Its wonderful antiseptic lather is so purifying, you feel 'like a million dollars' after a Lifebuoy bath. Lifebuoy even removes cigarette odors from the hands, my brother says."

For healthier skins, too

"I think Lifebuoy's a marvelous complexion soap, too. And it safeguards us all against germs. You can tell Lifebuoy purifies from its pleasant, extra-clean scent that vanishes as you rinse."

LEVES BROS. CO., Cambridge, Mass.

The Spanish Influence Is Only One of Many in Millinery

New York—While the Spanish influence dominates in millinery, there

The Dressy Little Cap Shown at the Top Is of Very Narrow Black Taffeta Ribbon Worked in a Design and Mounted on a Black Moline Cap.

The Long Side Shape at the Lower Left Is of Brown Bakou with a Sort of Double Brim Effect at One Side, the Front Brim Pulled Through the Side Brim. It is Bound in Brown and Capucine Taffeta.

(Copyright, 1929, by Fairchild)

are of course other types equally important. The real news, as applied

to millinery however is that the straw hat has at last been accepted. Not only in construction with felt, but quite independently of it. Straw hats seem equally approved for sports and informal usage, and while Bakous and such exotic weaves are largely in demand coarse straw also have their niche.

The little nose veil, revived again this spring in Paris has so far been treated with almost contempt in this country, yet what is more flattering, or what more dressy? We have had to revise our ideas of what is and is not pretty in millinery, to include the dressy hat, for restaurant wear or for any more or less formal occasion. Where once all smart women elected to wear a black hat, unless they were carrying out a monotone ensemble, now hats of many colors are being worn and what is perhaps more interesting hats of two colors. Plaid straws created a most favorable impression when they made their debut at the French races.

Creme de Chine is a distinctly new millinery material. Such a hat with uneven side brim and none at all in the front was fashioned of creme de Chine and trimmed over the left ear by a pretty little bow of narrow grosgrain ribbon.

The beret, or tam remains well at the top of the list of smart shapes. While felt is a frequent choice, straws and other materials are also used for this beguiling little shape.

Kingston High Loses Close Game To Poughkeepsie

Bridge City High School Goes To Bat In Ninth Four Runs Behind and Wins Out—Kingston Overcame Early Lead of Seven Runs.

Under a blazing sun at Memorial Field, Poughkeepsie, Saturday afternoon Kingston High School baseball team was defeated by Poughkeepsie High School, 11 to 13. It was a DUSO League game and it will probably spoil Kingston's chances for the league pennant.

Each team used two men to do the hitting. Burgevin started the game for the locals but he was hit freely and runs were crossing the plate frequently. On the other hand Kingston was doing nothing to uphold their end of the game, so Burgevin surrendered the mound to Thomas in the fourth. In this inning Poughkeepsie tallied twice but for the next three stanzas Thomas held them scoreless. In the sixth Grubb, Poughkeepsie's southpaw, was taken out of the box and Cutton was sent in to take up where he left off. It was while the latter was pitching that Kingston took the lead and held it until Poughkeepsie batted in the ninth.

The down river team began to hit and score just as soon as the game got under way. They got five hits and scored as many runs in their first three innings of Burgevin. In the fourth when Thomas was sent to the mound the Poughkeepsie team pounded out two hits and two more runs were added to their already comfortable lead. Kingston as yet hadn't shown any signs of coming through. In the first two innings the locals went one, two, three. In the third inning they began to find Grubb a little, bouncing two singles off their bats and again the fourth they got a hit out as yet no runs had crossed the plate.

Stolen bases—Johnson, Gehrig, Tigers; Averill, Indians, 5.
Pitching—Uhl, Tigers, won 7, lost 0.

Thomas Develops Sore Arm

It was in the seventh inning that Thomas received a blow on the right arm just below the elbow from a ball which was driven at him by O'Shay. This caused his arm to grow sore as he continued to pitch and the condition of it was beginning to tell as he tossed them in. In spite of the fact that he was pitching under a handicap he struck out the last man to face him in this inning.

Kingston Takes Lead

In the eighth Kingston came through again and went into the lead. To begin things Fuchsle hit one to Marcus on short but he fumbled it. Clarke then came to bat but he flied out to left. Spevack was walked and Minasian was safe on a grounder to the second baseman and Fuchsle scored. Saunders hit to third but O'Shay didn't attempt to throw Saunders out at first because of Spevack on third and this resulted in having each base occupied. Thomas hit a single to left, scoring Spevack and Minasian to put Kingston in the lead 8 to 7. Then Merrill raised one to center and Fries misjudged it but he recovered the ball in time to get Thomas going to second. Jones came through with a single to right on which Saunders and Merrill trotted home. Pretsch was thrown out at first to end the inning.

Kingston Was Now Three Runs in the Lead 10 to 7

It looked as though defeat was going to be turned into victory. Poughkeepsie in their half of the eighth cut the lead down to one run, 10 to 9.

Kingston added three more runs to strengthen their lead. Fuchsle, Clarke and Spevack crossed the plate on the hits of Minasian and Merrill, which were both singles. Clarke and Spevack reached first by hitting singles.

The Score Was Now 13 to 9 in Kingston's Favor

There didn't seem much to worry about with a four run lead.

O'Shay hit a hot liner down to Spevack on short. The ball took a bad bounce and went over his head into left field. This was a good beginning for the Bridge City team. Whitsett tripped to the plate and Thomas fanned him. Cutton found Thomas for a hit through second and O'Shay went to third. Grubb reached first on a fielder's choice, and following this the blow came. With three men on Draney pounded a double to left on which O'Shay and Cutton scored. At this stage of the game Jones committed a costly error when Abramsky grounded to him, and Grubb took advantage of it and spit home. Weiss now laid down a bunt and while he was being thrown out at first Draney came in with the tying run. Wag who substituted for Fries in the ninth inning, out in center field, came through was hit at the right time, scoring Abramsky, which ended the game.

Remarks

Just why Coach Kins didn't send Tingo in to pitch when Thomas complained of his arm is a mystery.

Minasian, Jones and Merrill each

got three hits in this game.

Kingston will still have a chance for the pennant if Newburgh beats Poughkeepsie

Paul Joyce, last year's varsity baseball captain, was in uniform. His coaching on first base was effective and Coach Kalkoff stopped him.

Wednesday Kingston plays Beacon here at the Fair Grounds

The score:

Off Thomas, 2: Grubb, 1; Cutton, 1.
Off Jones, 1: Morgan, 1.
Name of field: Memorial Field.

Kingston Won The Track Meet

Although Kingston lost to Poughkeepsie in baseball they took the track meet which was held before the game, 57 to 55 Poughkeepsie took the first place while Kingston took the second place.

The first track meet of the seven high schools in Ulster county will be held under the auspices of the Town and Country Division of the Young Men's Christian Association in Kingston, on Saturday afternoon, May 25, at 2 o'clock.

The track meet will be held at the Kingston Driving Park, which is at the end of Manor avenue, and where the Chamber of Commerce has promoted the automobile races for the past two years. There will be no admission to the Park and spectators will be welcomed.

The high schools competing will be as follows: Saugerties, New Paltz, Highland, Marlborough, Kerhonkson, Ellenville and Wallkill. These are the same high schools that competed in the basketball tournament, which was held in the early spring and which the Ellenville team came off as victors.

The track meet will be held at Kingston Driving Park, which is at the end of Manor avenue, and where the Chamber of Commerce has promoted the automobile races for the past two years. There will be no admission to the Park and spectators will be welcomed.

Horse Racing at Kingston Driving Park August 13-16

Kingston is a member of the Hudson Valley Circuit this year and there will be horse racing at the Kingston Driving Park on North Manor avenue on August 13-14 with trotting later at Ellenville and Orangeburg, the other two members of the circuit.

The dates for Ellenville are August 20-21 and at Orangeburg, Rockland county, August 28 to September 2. These meets all close together and offer an uniform early closing event to close June 1. John Drury of Ellenville is circuit secretary and from him entry blanks may be secured together with detailed information and complete conditions.

The opening meet of the circuit will be held in this city and the classes are two year old 2:12 and 2:15 trots, three year old or under 2:22 and 2:15 pacers. Each of the events is for a \$500 purse.

At all three meets the N. T. A. trotting rules, three heat plan, will be in effect.

The Kingston dates will be at the Driving Park while the Ellenville dates and the Orangeburg dates will be held at the tracks in those towns. The Ellenville races will be held during the Ulster County Fair week and the Orangeburg races during the Rockland County Fair.

CY WILLIAMS' JOB NOW THREATENED

Noted Fly Chaser May Find Himself Warming Bench.

Cy Williams, who has played in the National League for 15 years, is one of the most valuable characters in the game and he is always kind and helpful to the rookies, but still he soon will be thinking some such thoughts as these:

"This fellow Kiehl, now where did he come from? Fort Wayne? Huh! Going to play the outfield this year. He's sure of it, because he hit 300 in 90 games last year. Well, maybe he is, and maybe I will sit on the bench and watch him, but then again maybe not. They have had me sitting on the bench or mucking cows on my Three Lakes farm for many summers, but still I play in my 100 games every year."

"Say, I was playing ball in Notre Dame college the year this boy, Kiehl, was born. I got into the big league the year his folks celebrated his seventh birthday and bought him a fuzzy toy dog with black buttons for eyes."

"And Whitney, when he was ten years old and playing with a rubber ball I was a veteran on the Chicago club. Why, I joined the Phillies before Whitney entered his teens. They were calling me 'Old Cy' in the big leagues before any one of a half-dozen of these boys around this ball yard had ever gotten out of grammar school. And here I am still hitting more home runs than any of them will hit, unless it is Hurst. That boy is some slugger, and he may well come up to my record of 1923, when I led the league and tied Ruth."

"Pretty good boys, though, and some of them look to me like real comers. That boy Whitney looks to me like the best third baseman since Pie Traynor broke in. He hit in more runs last season than Hornsby—103. Think of that! And he played a rattling good game at third, too. Steady as a rock day after day."

The game was ended by rain after two New York batters had been retired in the fifth. Babe Ruth and Lou Gehrig raked Jack Russell for successive home runs in the third, and Fred Heimach was turning back the Boston invaders with regularity. The Babe's blow was his seventh, Gehrig's his ninth.

Although the champions gained nothing on the victorious Mackmen, who swept their Washington series, the Ruppert lines were established more securely in second place. The Browns finally ran into an afternoon of indifferent pitching, and saw the Cleveland Indians dash off with a 10 to 6 decision. That left the Browns one full game behind the Yanks and two and one-half contests to the rear of the Mackmen.

The White Sox turned the tables on Detroit at Navin Field, winning by 10 to 3, but the Chicago team lost the services of its star outfielder, Johnny Mostil, who snapped the bone in his right ankle in the fourth as he slid over the plate. Lyons pitched for Chicago.

The final victory of the Athletics in Washington was made possible by the fine box work of George Walberg, who gave the Senators only 7 scattered hits. The Macks hammered Burdette Hopkins and Marberry statistically and impartially to score their seven runs.

The Cardinals narrowed the National League fight for the top by shading Adolfo Luque and the Reds at Cincinnati, 2 to 1, as Burleigh Grimes pitched the Pirates to a 4 to 1 decision at Wrigley field. This turn of affairs left the Bruins a margin of only half a game over the Red birds.

Grimes' victory was his sixth of the season, with a defeat yet to be entered against his record. The big spitballer leads his own circuit and stands second in the majors only to George Uhl of Detroit, who has won seven. Pat Malone and Arthur Nehf worked against Grimes.

Steverson Johnson had something of an edge over Luque in the battle of the Cardinals at Cincinnati, but his superiority was registered on the scoreboard only in the eleventh inning, when the National League Champions manufactured a single run to win by 2 to 1.

The Giant-Robin postponement in Brooklyn was immediately rescheduled for today, originally an open date.

Nature's Adaptation of Fish to Environment

Fish have all sorts of physical adaptations to their environment. Doctor Lomax has found. Some have impregnable defense against enemies, such as the "shell fish." This is not a mollusk or crustacean, but a real fish covered with bony plates. It can move only its lips, gills and tail and must stand up to feed. Among the diurnal fish are the workers and the loafers. The former keeps busily engaged probing for food in the sea bottoms, but they are accompanied by others who only wait to catch what they dig up.

Many of the fish are gorgeously colored and some have the ability to change their color, like chameleons, in different environments. Such a creature as the hog fish becomes mottled when on a broken, rocky bottom, but white on a smooth sand bottom. The dominant colors, Doctor Lomax found, tend to be the colors of the places where the fishes live. Sometimes this protective coloration extends even to the inside of the mouth and to the iris of the eye.—Washington Star.

And Various Other Places

The advice that a man, if he wants to live long, should keep his mouth closed when angry is especially good in Chicago and while traveling in Soviet Russia and Fascist Italy—Toronto (Canada) Daily Star.

University of Illinois students are voting to make boxing a varsity sport.

The first Kentucky derby was held May 17, 1875, and was won by Aristides.

A golfer is supposed to always tell the truth—even when he calls another golfer a liar.

Golf is America's richest sport, it being figured the game has a total investment of \$2,000,000,000.

Dave Guarnaccia, Harvard football star, has turned down several offers to play with the professionals next fall.

A Scotch professional golfer, after 14 years of retirement, has resumed the game. Evidently he found his ball.

Dutch Herman, coach of the Penn State basket ball team, is an assistant professor of history on the faculty there.

The University of Illinois will construct an artificial ice skating rink for the use of all students, men and women, at the cost of \$250,000, this spring.

Although he engaged in 417 bouts during his lengthy ring career, Battling Levinsky, former light heavyweight champion, was knocked out but three times.

Not so many years ago, the world grasped when seeing Charles Hoff of Norway pole vaulted 13 feet. At least half a dozen Western Conference athletes today can beat that mark every time out.

From there to compare might well be the title of a biography of Christopher, ruler of Haiti during the days of the "Black Republic." Because he came from such humble origin Christopher was poorly educated despite his collection of fine books and rare art pieces in his palace, Sans Souci. The story is told that when he was made emperor, Christopher chose to call himself "Henry I" rather than Christopher, because he could spell the former and was unable to write his real name.—Detroit News.

Over 1,200 Boys And Girls Enjoy Rotary Field Day

Refreshment Committee Keeps Busy Serving Ginger-pop and Hot Dogs—Prizes Awarded Winners of Athletic Events—Several Hundred Girls Also Enjoyed Event.

Over 1,200 boys and girls were guests of Kingston Rotary Club Saturday afternoon at the Kingston Driving Park when the Rotarians were hosts at a field day and athletic meet. That the children enjoyed the afternoon would be stating the fact mildly for there was plenty of ginger-pop for everyone, hot dogs and just before the meet broke up there were toy aeroplanes given to the children. A committee in charge of the refreshment end of the meet found their task a difficult one. When the "hot dogs" encased in rolls were ready to serve there was a general stampede for the distributing booth and in order to take care of the crowd several lines were formed but the difficult task was to keep the children in line. This matter was solved when Alex Ferguson organized a crew of the youngsters with the assistance of other Rotarians established headquarters in the grandstand and compelled the children to pass in single file up the stairs and past the distribution point. Even this system fell short of being 100 per cent and several of the youngsters were able to devour their dogs in record time and fall in line several times. Ginger-pop flowed freely and there were numerous repeat orders one youth calmly admitting to his pal that he had consumed no less than nine bottles.

While the committee in

MONDAY, MAY 20, 1929.

Sun. 68°-72°; Mon. 65°-70°.

Weather Forecast.

The latest temperature recorded by the Kingston observatory last night was 64 degrees. The highest temperature recorded today was 65 degrees.

Weather Forecast.

Washington, May 20. (United Press.)—The weather forecast for Monday and Tuesday, possibly Wednesday, is for a cloudy day with light rain or drizzle. The temperature will be in the 60s and 70s. Windy weather is expected for Tuesday in the afternoon and Wednesday morning.

NEW ANTI-AIRCRAFT GUNS FAR SURPASS EARLY MODELS

United States Army Develops Weapon That Does Everything But Fire.

Washington, May 20. (United Press.)—The new anti-aircraft weapons developed by the United States Army are far more effective than those used during the World War. They have been perfected by the War Department, officials of the Ordnance Department disclosed.

Probably the greatest strides, according to these officials, have been made in the development of the three-inch anti-aircraft gun equipped with automatic fire control apparatus which virtually does everything but fire the guns at the target.

The new weapons are said to have many times the fire power and greater accuracy than the World War equipment.

So effective are the new weapons that efforts now are under way to include funds in the 1931 army budget to begin replacement of part of the obsolete material now in use with these modern guns, carriages and fire control instruments. The military bureau has asked for sufficient funds to inaugurate a program calling for the arming of National Guard anti-aircraft regiments throughout the country with the equipment.

American forces for the most part are armed with anti-aircraft equipment inadequate for combating modern high-speed aircraft. These weapons have poor mobility, are inaccurate, have low muzzle velocity and are considered generally unsatisfactory.

Capt. G. M. Wells, chief of the anti-aircraft section of the artillery division, in a recent report, approved by Maj. Gen. C. C. Williams, chief of Ordnance, points out some of the characteristics of the new three-inch weapons and fire-control equipment.

According to Captain Wells, one instrument finds the target range, another the altitude, while a third, termed the anti-aircraft director, computes the firing data.

"The director may be regarded as the heart of the anti-aircraft fire-control system," Mr. Wells said. "It is essentially a super computing machine which automatically and continuously observes the target and computes its future position in space. All factors which in any way influence the flight of the projectile are corrected automatically within the instrument."

The firing data are transmitted electrically to three data receivers on the guns.

Settle Wine Tax, Suit After 25 Years

Buenos Aires—A \$200,000 lawsuit, started 25 years ago by the government to obtain payment of a fine assessed against a distillery, has just been settled in favor of the defendants.

The case began in 1903 with imposition of a fine, for alleged nonpayment of taxes, on **Pedro Grillo & Sons**. The firm protested and refused to pay, upon which their distillery was closed.

The action dragged through various courts and reached the Supreme court a few months ago. In denying the tax authorities' claims, the court pointed out that the distillers had not only suffered enormous losses by having their plant closed for a quarter of a century but had also had to mortgage other property in order to deposit bond, on which they paid interest the whole 25 years.

Street Car Argument, Jams Vienna Traffic

Vienna—Exercise by a Viennese of "every man's right to criticize the authorities when, where, and as often as he pleases," recently caused a record traffic jam.

While standing on the forward platform of a street car this Viennese began to express his opinion of the way in which the city authorities were clearing away the snow.

The motorman, a red-hot Socialist, decided to avenge the insult to his government—which is also Socialist—by driving the passenger from his car. Other street cars arrived on the scene, as did also numerous automobiles and wagons.

Only by a compromise was the problem solved. At the suggestion of the police the passenger consented to go inside the car.

Monkey Gland Grafting, Process Is Discredited

Berlin—Dr. Serge Voronoff's monkey gland operations must be considered discredited, the famous surgeon, Prof. August C. Bier, and other speakers declared recently at a surgeons' convention here. The tissues or organs transplanted soon die, the surgeons said. Although the theory of complete rejuvenation was generally discounted, the surgeons admitted that grafting of organs often serves as a stimulus.

New Zealand Gets Free, Joke on Harry Lauder

Christchurch, New Zealand.—Sir Harry Lauder, the world-famous Scottish comedian, has provided New Zealand with a new joke—free, gratis, and for nothing. Although holding a ticket entitling him to travel first class, Sir Harry traveled second class for a number of miles before he found out his mistake.

Fame Awaits Film

One of these days some fellow is going to hurt himself into immortal fame by reaching his sixty-ninth birthday and telling reporters he knows nothing about practically everything.—Huntington Advertiser.

Market for Fruits And Vegetables

New York, May 20. (State Department of Agriculture and Markets.)—The season's first carload of peaches from Georgia arrived on the New York market today. It comprised 225 carloads, each containing six four-quart baskets. The peaches were of the Mayflower variety and showed excellent quality but were small in size. The demand was very limited and sales were made at \$2.50 to \$2.75 a carrier.

Of the 5,775 carloads of peaches received on this market last year, Georgia contributed 3,425 cars.

The condition of peaches in 19 southern states—from North Carolina southward to Florida and westward to Oklahoma and Texas—declined about 67 per cent of normal on May 1. This compared with 71 per cent last year, 43 per cent in 1926, and 57 per cent in 1925.

In Arkansas, peaches declined sharply during April, chiefly as a result of rainy weather at blooming time. The May condition of this crop in Georgia averaged only 56 per cent as against 92 a year ago and 45 two years ago.

In Arkansas, Oklahoma and Texas prospects still were much better than for any of the last three years, ranging from 64 per cent to 89 per cent of normal in three states, compared with 25 per cent to 67 per cent in May, 1928.

Prices on southern new crop potatoes were higher, especially on fancy. Receipts were more liberal but trading was also improved. South Carolina was the chief source of supply and the finest No. 1 cobs changed hands at principally \$4.75 to \$5 a barrel.

Upland New York old crop round white potatoes in bulk peddled out at \$2.95 to \$3.25 per 180 pounds.

About 500 carloads of potatoes were received on the local market during the past seven days. Supplies were about equally divided between old and new crop stocks.

Strawberry prices were lower. Arrivals were lighter, but a large volume of the supply was unattractive. The demand was moderate.

Maryland and Delaware fruit jobbed out from \$6 to \$8, mainly 11c to 14c a quart basket.

Receipts of western New York apples were moderate. The market ruled steady with trading moderate. Wholesale business on United States Grade No. 1, 2½ inch Baldwins was at \$5 to \$7 a barrel and chiefly, \$2.25 a bushel basket.

Antiseptic Pictures

When my small daughter comes to me with a scratch or cut I get the mercurochrome bottle and paint on the wound a little man, a dog or anything that my daughter suggests, as my meager artistic abilities will allow. Never for a moment does she hesitate to let me apply the antiseptic, because it is associated in her mind with funny little pictures.—Exchange.

JUST A MINUTE, Mr. AUTO OWNER!

DO YOU KNOW THAT AUTO LIABILITY AND PROPERTY DAMAGE INSURANCE RATES ON PRIVATE PLEASURE CARS HAVE BEEN GREATLY REDUCED LATELY; THAT IF YOU ARE A CAREFUL DRIVER AND HAVE HAD NO ACCIDENTS IN THE PAST TWO YEARS YOU ARE ENTITLED TO A STILL FURTHER REDUCTION OF 10 PER CENT.

And that you can pay your insurance in several monthly installments? Let the Travelers Insurance Co. of Hartford, take the worry out of automobilizing for you.

We are Their Kingston Agents. Fifty Years in Business.

OUR DAILY PATTERNS

A Dainty Two Piece Dress

6490. Printed georgette in beige and blue tones was employed in the making of this attractive style. The vestee and lining of the blouse is of beige crepe. The blouse is fitted at the hips, below slashes that hold fullness to effect the blousing. The sleeve is a fitted one piece model. The skirt is pleated at the right side of the front and back, and is mounted on an underbody that may be of lining.

The pattern for this dress is cut in 6 sizes: 34, 36, 38, 40, 42 and 44 inches bust measure. To make the dress for a 38 inch size will require 4½ yards of 39 inch material together with one yard of lining 32 inches wide for the underbody. To finish outer edges of the points, and the neck and sleeve edges with bias tape 2½ yards is required 1½ inches wide. The vestee of contrasting material requires 1½ yard 18 inches wide and cut crosswise. The width of the dress at the lower edge with plait extended is 2½ yards.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion Book Notice

Send 15c in coin or stamps for our Up-to-Date Spring & Summer 1929 Book of Fashions, showing color plates, and containing 500 designs of Ladies', Misses' and Children's Patterns, a Concise and Comprehensive Article on Dressmaking, also Some Points for the Needle (illustrating 30 of the various, simple stitches) all valuable hints to the home dressmaker.
